To Whom It May Concern

Paramarq were commissioned by JDR Cable Systems to conduct a customer survey from November 2005 - March 2006 across the UK and Europe.

JDR gave Paramarq access to a range of commercially sophisticated customers who were then interviewed.

JDR were very pleased with the professional and structured manner in which the survey was conducted

JDR have found the survey results extremely useful in developing our sales, marketing and QA strategies.

Yours faithfully

Patrick Phelan  
Managing Director  
JDR Cable Systems Ltd
